WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

April 2, 2024

Severe Weather Threat

- After storms caused damage in the nation's heartland Monday, Tuesday's severe weather outbreak is expected to be more intense, with the potential for strong, long-track tornadoes that could tear across parts of Ohio, northern Kentucky and southeastern Indiana.
- An initial round of severe thunderstorms was ongoing in portions of the Ohio Valley early Tuesday, but a second round of severe weather Tuesday afternoon and evening has forecasters concerned as supercells are expected to develop after the passage of warm front.
- Tuesday's severe weather risk extends from the Ohio Valley to as far south as the Gulf Coast and as far east as western portions of Virginia and the Carolinas.
- Overall, more than 78 million Americans face the threat of severe storms between Tuesday and Tuesday night.
- NOAA's Storm Prediction Center (SPC) has issued a Level 4 out of 5 risk for severe weather in parts of Ohio, northern Kentucky and southeastern Indiana. This includes the cities of Columbus, Cincinnati and Dayton in Ohio, as well as Louisville and Lexington in Kentucky.
- A Tornado Watch has been issued until 12 p.m. EDT for portions of central and northern Kentucky and southern Indiana.
- Additional Tornado Watches will likely be issued throughout the day.

Declaration Request

Ohio

- On March 29th, the Governor of Ohio, Mike DeWine, requested a major disaster declaration for tornadoes that occurred March 14, 2024, in Ohio.
- He is requesting individual assistance for the counties of Auglaize, Crawford, Darke, Delaware, Hancock, Licking, Logan, Mercer, Miami, Richland and Union.
- The National Weather Service has confirmed twelve tornadoes impacted numerous counties throughout Ohio.
- An EF3 tornado impacted Logan and Auglaize counties, resulting in three fatalities and thirty-eight injuries.
- Joint PDAs identified the following numbers of damage for structures surveyed: 349 destroyed/major, 536 minor and 253 affected.
