WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

August 4, 2021

Tropical Activity

Atlantic – Disturbance 1

- A small and weak area of low pressure, with limited shower and thunderstorm activity, is passing near the Cabo Verde Islands.
- Significant development of this system is not expected during the next day or so due to unfavorable upper-level winds and marginally warm waters.
- Formation chance through 48 hours: Low (10%)
- Formation chance through 5 days: Low (10%)

Atlantic – Disturbance 2

- A tropical wave is forecast to move off the west coast of Africa by late Thursday.
- Environmental conditions appear somewhat conducive for some slow development over the far eastern Atlantic through the weekend into early next week while this system moves generally westward at about 15 mph.
- Formation chance through 48 hours: Low (near 0%)
- Formation chance through 5 days: Low (20%)

Flood Activity

Utah

- Less than 48 hours after devastating floods swept across the streets and yards of Enoch, city residents and officials continue to work toward helping the community recover.
- Enoch City Manager Rob Dotson said on Tuesday at least 294 homes were affected by the flooding that followed Sunday's torrential rainstorm, which dropped nearly 3 inches of water in just over an hour in certain areas.
- City officials declared a state of emergency that same evening.
- As of Tuesday afternoon, emergency management officials, joined by firefighters and public works officials, were going door-to-door performing in-person property damage assessments.
