WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

April 28, 2026

## Severe Storm Threat South

- A final round of significant severe weather is expected to erupt over nearly 50 million people across eastern Oklahoma and the Ark-La-Tex region Tuesday afternoon.
- This marks the sixth consecutive day that NOAA's Storm Prediction Center (SPC) has issued at least a Level 3 out of 5 risk of severe thunderstorms for the Central U.S. and the South.
- Large hail will be the main threat Tuesday afternoon with hailstones larger than 2 inches in diameter possible.
- The SPC has issued a Level 3 risk of severe thunderstorms Tuesday for parts of North Texas, southeastern Oklahoma, northern Louisiana, much of Arkansas and eastern Mississippi, as well as the Memphis, Tennessee metro area.
- The overall severe weather threat stretches across a corridor from the Big Bend of Texas through Kentucky.
- Storms will shift east over Mississippi, Alabama, Tennessee and Georgia through the evening.

## Severe Storm Activity

- Since last Thursday, there have been almost 900 reports of severe thunderstorm winds, wind damage, hail or tornadoes in the U.S. in the latest spring siege of severe weather.
- Thursday brought almost two dozen tornado reports from Oklahoma to Iowa, as well as over 160 damaging wind and hail reports combined.
- On Thursday evening, a rare tornado emergency was issued for the storm that tore through Enid, Oklahoma and the nearby Vance Air Force Base, warning of catastrophic damage and threat to life.
- The resulting tornado was rated EF4 with winds of 170-175 mph. It was the first EF4 in Garfield County, Oklahoma, since April 26, 1991. There were 10 injuries from this tornado.
- There were five other tornadoes reported from the National Weather Service in Norman, Oklahoma.
- As forecasted, Friday was less impactful. There was only one tornado report in Kiowa, Oklahoma, but there were 10 tornado reports in Mississippi. There was more than 120 damaging wind and large hail reports combined.
- Saturday brought more intense storms, and roughly a dozen tornado reports, mainly across Texas and Oklahoma.
- As storms continued through Texas early Sunday morning, two people were killed.

WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

April 28, 2026

- On Sunday, there were over 90 hail reports, over 50 damaging wind reports and seven tornado reports across the Plains.
- Some tornado warnings even had "particularly dangerous situation" tags indicating large and powerful tornadoes in progress. Notable ones were reported in Sycamore, Kansas, as well as near Joplin, Missouri. Joplin is no stranger to powerful tornadoes.
