WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

December 5, 2023

Flash Flood Risk

Pacific Northwest

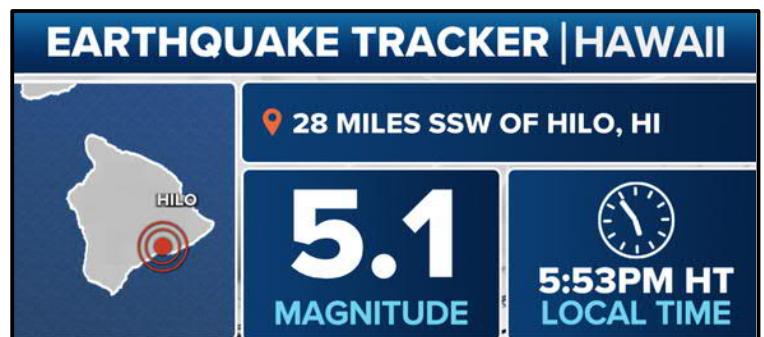

- The latest in a barrage of storm systems tapping into atmospheric rivers of moisture is soaking the Northwest as the week begins, and it will trigger flooding in some areas.
- Rainfall from the storm is spreading into Washington and Oregon now and it will last through Tuesday night, lingering into Wednesday for some locations.
- Multiple locations in northwest Washington had picked up a half foot or more of rainfall in the 24 hours ending early Tuesday morning.
- This latest system is warm, which means snow levels are as high as 9,000 feet. That means snowfall from previous storms late last week into the weekend will melt in some areas, which is adding to flooding concerns.
- The National Weather Service has issued flood watches from western Oregon into parts of Washington and northern Idaho.
- Multiple river flood gauges are predicted to reach minor, moderate or major flood stage in western parts of Washington and Oregon.
- The Snoqualmie River near Carnation, Washington, Snohomish River at Snohomish, Washington, and the Skagit River near Concrete, Washington and Mt. Vernon, Washington, are some of locations predicted to have major flooding by late Tuesday or Wednesday.
- There is also the possibility of some landslides, especially in and near recent burn areas.

Earthquake Activity

Hawaii

- Hawaiians on the state's Big Island had a shake added to their dinner menu Monday evening when a moderate-sized earthquake struck near Hilo, Hawaii.
- The magnitude 5.1 quake hit just before 6 p.m. local time, centered just inland from the Pacific Ocean about 28 miles southwest of Hilo, according to the U.S. Geological Survey (USGS).
- The quake was rather shallow, measured at a depth of just 1.25 miles. The USGS shake intensity map indicates weak to light shaking was felt across the island.
- KHON-TV in Honolulu says many area residents reported feeling the quake, but there were no reports of any damage or injuries.
