## Disaster Activity

### DR-4724 Hawaii Wildfires

- The death toll from the devastating wildfires in Hawaii has risen to 96, with search and rescue teams still looking through the charred remains of scorched buildings for any signs of the hundreds of people still missing from the deadliest U.S. wildfire in more than 100 years.
- Firefighters are still working to contain flare-ups and extinguish the wildfires that broke out nearly a week ago, with the Upcounty/Kula fire now at 60% containment, the Lahaina fire at 85% containment, and the Pulehu/Kihei fire at 100% contained.
- Residents of West Maui have slowly been allowed to return to their homes, and on Monday, travel into West Maui will be expedited with access placards that will ensure traffic management and prioritize the safety of those who will be on the roads.
- In an update, officials said access into West Maui via Kahakuloa for West Maui residents is open. Access into West Maui via Maalaea with restricted to only those who have been pre-approved for travel.
- Currently 4,510 customers without power in Maui County.
- An unsafe water advisory has also been issued for many residents until further notice, and residents have been told not to drink or boil water.
- Six shelters have been set up across the area with 707 occupants.
- Around 2,200 structures have been destroyed or damaged because of the fires in western Maui, where the hard-hit historic town of Lahaina is located, according to Hawaiian Governor Josh Green. About 86% of the structures were residential, he added.
